**I support public sector workers.
I call on the government to:**

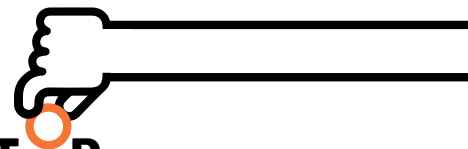

- 1. No ifs, no buts - end public sector pay cuts. Public service workers deserve better.**
- 2. Proper funding so that everyone gets the services they need, when they need them regardless of their bank balance or postcode.**
- 3. Take politics out of public service workers' pay - let independent pay review bodies decide what's right, not politicians.**
- 4. Pay all public sector workers enough to live on, that means at least £10 an hour.**
